STAYCATION TIPS

Hike along one of our remarkable trails

Skellefteå's surroundings offer good opportunities for hiking along various trails, from 3 to 80 km long. Along most of the trails there are sights and resting places, and in connection with a couple of them there are also accommodation, cafés and restaurants. Scan the QR code and choose which trails you want to hike this summer.

DON'T MISS The Hiking Card or Top of Skellefteå

SALETA'S ACCOMMODATION TIPS ALONG THE TRAILS

For those who want to hike and live comfortably there are several nice options. All the trails in Kalvträsk lead to the **White Mountain Lodge** and its lovely cottages. The Furuögrund trail is directly connected to **Byske Camping**. A third alternative is to hike along Bjuröklubb's beautiful paths and spend a night in **Bjuröklubb's lighthouse**.

A LODGE, AN OBSERVATION TOWER AND 8 HIKING TRAILS

Kalvträsk is a real hiking mecca with several nice trails to choose from. There is a lookout tower well worth a visit at the top of Vitberget. End the hike with food and accommodation at White Mountain Lodge.

ROBERT UNGH'S TIPS

The cycling town of Skellefteå is really blooming. **Skellefteå Bike Arena** and **Bygdsiljum Bike Park** are obviously given tips. Equally the MTB courses on the back of Vitberget with signage from Skellefteå Camping.

Personally, however, I prefer to find new trails and places every time I go out, on Vitberget, along the Skellefte river or by the coast.

SKELLEFTEÅ BIKE ARENA One of Scandinavia's largest cycling park

A stone's throw from Skellefteå's city center, at the top of Vitberget, one of Scandinavia's coolest cycling facilities with options for both the beginner and the experienced cyclist.

Read more about biking at visitskelleftea.se/cykla

SCENIC CYCLING AROUND LÖVÅNGER

Around Lövånger you will find six cycling paths offering great experiences along the way. Combine the cycling experience with food and accommodation at Lövångergården and Lövångers Kyrkstad.

BYGDSILJUM BIKE PARK

The municipality's only lift-accessible downhill park and its 9 slopes of varying difficulty can be found in Bygdsiljum. Bicycles are available for rent on site. Find out more at bygdsiljumsbacken.se

Paddle in sea, lake and river

There are many nice waters to paddle in Skellefteå and its surroundings. Both calm and wild. Kågefjärden, Burviksfjärden and Finnforsån to name a few.

3 activities to tick off this summer

SVANSELE WILDERNESS CENTER

In Svansele you will find a unique wilderness exhibition with over 600 stuffed animals. A journey through Västerbotten's nature over a 1800 m2 space. Taste the wilderness with local flavours cooked over an open fire.

HORSES OF TAIGA, SVANSELE

An experience for the adventurous who wants to discover nature from the back of an Icelandic horse. Beginners and experienced riders are welcome and the choices of tours and packages are many.

SKELLEFTEÅ GOLFKLUBB, RÖNNBÄCKEN

Nice and scenic 18 + 9 hole course and a large driving range. For beginners who want to try golf there is a 9 hole Pay & Play course. Don't miss a visit to the Golf Restaurant outdoor seating.

MIKAEL'S TIPS ON SEA FISHING

First and foremost, I want to take up the cudgels for **grayling and sea trout fishing**. It is possible to do this fishing with a regular reel rod and casting float with flies around flowing headlands and reefs.

I would also like to tip about **pike fishing along the coast** which is good in May-June and in the autumn when the water temperature starts to drop to 10 degrees. Hot spots are shallow bays that have an opening to deeper water as well as straits.

If you want more tips on equipment or book a guided fishing trip, check out magofishing.se

Easy access fishing waters

The Skellefteå area offers great fishing opportunities in both the river and the sea. The Byske river is one of Sweden's best salmon rivers and pikes lurk in the reed beds of our lakes. The Skellefte river is perfect for sea trout and salmon for those looking for an urban fishing experience.

Pssst. Most fishing is free for young people up to 15. Scan the QR-code for more tips.

THE UNIQUE AND LUXURIOUS RIGHT OF PUBLIC ACCESS

Never before has the right of public access felt so appealing. Moving freely in nature, dreaming ourselves away in forest or sea bay far away from the daily stress feels extra luxurious this summer.

STAYCATION TIPS

Enjoy the sun at one of our beautiful bathing spots

One thing is certain, if you are in Skellefteå in the summer, you're always within reach of a bathing spot to play, swim and sunbathe. How about Västerbotten's longest sandy beach, Sweden's longest floating jetty and a soft ice cream that cools nicely in the heat?

STAYCATION TIPS

What would summer be without our summer cafés?

Summer is for many synonym with coffee excursions, so it's no wonder that the number of cafés around Skellefteå is multiplied during the summer. Isboden, Svedjan Ost, Lanthandeln, Skråmträsk Kvarn and Café Fyren to name a few. Scan the QR code for more café tips.

VILDA KOCKEN'S LOCAL PRODUCER TIPS

We are surrounded by talented producers and I would like to bring up a few of them.

Svedjan Ost creates unique, world-class cheese with a complex character, and you can enjoy homemade pastries at their summer café amongst the cows in Svedjan.

Bastuträsk Charkuteri makes sausages and fantastic meat products based on local recipes from the late 1800s. No secrets. No frills. High quality.

Last but not least, I want to strike a blow for breweries **Skellefteå Bryggeri** and **Fermenteriet**, cherishing the craft and delivering both traditional and innovative beer to Systembolaget and local pubs.

WITH TAKE AWAY AND TABLE SERVICE THROUGH THE CORONA CRISIS

We are proud of Skellefteå's restaurants and cafés for quickly adapting their offerings to handle the very unique situation we are in.

Take away, lunch boxes and custom services make it easy and safe to continue eating well for lunch as well as dinner.

We have collected all adapted offering on visitskelleftea.se/take-away

Taste of Skellefteå

During the summer months, when the sun barely sets and the days go unnoticed into the evening, there is nothing better than sitting at an outdoor terrace with loved ones. Add delicious flavours, innovative menus, local products as well as good service and you get great restaurant experiences waiting for you. Scan the QR code for more restaurant tips.

VÄSTERDROTTNINGEN'S FAVORITES

Thanks to **REKO-ring Skellefteå**, I can shop local food products regularly as many of the countryside food producers gather at the same place.

But there is something extra about visiting them at home, so a trip to a couple of farm shops during harvest times is an activity I highly recommend.

My favorite farms are vegetable growers **Kräkångers Eko-gård**, homely **Bergsåkersgården** with their cute lambs and rural idyll **Strömsholms lantbruk**, complete with spotted cows and red barns.

STAYCATION TIPS

Visit our local farm shops

Whether you are looking for local meat products, freshly harvested vegetables, crafts or art, there is a large selection of farm shops around Skellefteå. Many stay open during the summer or will welcome you if you contact them before your visit.
